

# Muhammad Adeel Nawaz

## Senior React Native Developer

✉ adeel0202@gmail.com    ☎ +92345970081    📍 Islamabad, Pakistan

### SUMMARY

---

Senior React Native & Mobile App Developer with 8+ years of experience building scalable cross-platform applications using React Native, Expo, and TypeScript. Passionate about creating high-quality, user-focused mobile experiences with clean and maintainable code.

### PROFESSIONAL EXPERIENCE

---

**Dynamologic Solutions, Senior React Native Developer** 08/2020 – Present | Islamabad, Pakistan

- Led development of cross-platform mobile applications using React Native, Expo, and TypeScript.
- Built and maintained production apps for clients across healthcare, events, workforce management, e-commerce, and on-demand services.
- Developed offline-first features, integrated REST APIs, Firebase services, payment gateways, Google Maps, push notifications, and secure authentication.
- Published and maintained applications on the Apple App Store and Google Play Store.

**Upwork, Fiverr & Direct Clients, Freelance React Native Developer** 2021 – Present | Remote

- Developed custom React Native applications for international clients from concept to deployment.
- Delivered production-ready mobile apps with Expo, TypeScript, WooCommerce integration, payment gateways, push notifications, and location services.
- Worked directly with clients to gather requirements, provide technical guidance, and deliver high-quality solutions on time.

**Altair Technologies, Android | React Native Developer** 10/2017 – 08/2020 | Islamabad, Pakistan

- Developed and maintained React Native mobile applications for Android and iOS.
- Implemented new features, resolved production issues, integrated REST APIs, and optimized application performance.
- Worked closely with designers and backend developers to deliver high-quality mobile solutions.

### EDUCATION

---

**Bahria University** 09/2013 – 07/2017 | Islamabad, Pakistan

Bachelor of Science (BS) in Software Engineering

## SKILLS

---

**React Native** (Cross-platform mobile development, Hooks, Native Modules) | **Expo** (EAS Build, Expo Router, OTA Updates, Expo SDK) | **TypeScript** (Strong typing, Generics, Interfaces) | **JavaScript (ES6+)** (Modern JavaScript, Async Programming, Modules) | **React** (Hooks, Context API, Component Architecture) | **State Management** (Redux Toolkit, Context API, AsyncStorage) | **API Integration** (REST APIs, Authentication, Axios, WebSockets) | **Firebase** (FCM, Authentication, Analytics, Crashlytics) | **Mobile Development** (Push Notifications, Deep Linking, Maps, Payments, Offline Storage) | **App Deployment** (Apple App Store, Google Play Store, EAS Build, TestFlight) | **Version Control** (Git, GitHub, GitLab, Bitbucket) | **CI/CD & Tools** (EAS, Fastlane (basic), VS Code, Android Studio, Xcode)

## LANGUAGES

---

English | Urdu

## PROJECTS

---

**Senegal Software**, *Workforce Management Platform* | *React Native* 2021 – Present  
Developed and maintained a white-label workforce management platform for iOS and Android. Implemented real-time chat, push notifications, offline support, Google Maps, secure API integration, and App Store/Google Play deployments. The platform powers multiple branded applications for different clients.

**Eventual Tickets**, *Event Ticketing & QR Scanner* | *React Native* 2021 – Present  
Enhanced and maintained a production ticketing application by implementing Guest Pass, offline functionality, QR code scanning, and multiple Expo SDK upgrades while improving performance and stability.

**SaniService**, *On-Demand Home Services App* | *React Native* 2025 – 2025  
Built the mobile application from scratch using React Native, Expo, and TypeScript. Integrated WooCommerce APIs, Mamopay payment gateway, Firebase Cloud Messaging, location services, and published the app on both the Apple App Store and Google Play Store.

**Expensify**, *Open Source Contributor* | *React Native* 2022 – 2025  
Contributed to one of the world's leading expense management applications by fixing production issues, improving user experience, and submitting accepted pull requests to the open-source React Native codebase.

**Golwiz**, *Sports Prediction & Fantasy App* | *React Native* 2022 – 2025  
Developed new mobile features including Google Sign-In, push notifications, API integrations, and UI enhancements while improving overall application performance and user experience.

**Haven Security**, *Smart Home Security App* | *React Native* 2021 – 2022  
Built and maintained secure mobile features including encrypted authentication, secure credential storage, push notifications, and IoT device integration using React Native and Expo.
